Saturday, June 2. 1722.

Vienna, May 20.

**S**OME Days ago the Emperour gave the Regiment of the late Count Virmont, to General Livingston, a Native of Ireland. Count Colleredo, Governour of Milan, is daily expected at Court to make a verbal report of the Situation of Affairs in that part of Italy. The Emperour, attended by the Prince de Schwartzberg Great Master of the Horse, and several of the Nobility, went lately to visit a Breed of Horses near Laxenberg; at the same time, the present reigning Empress went to the Baths at Baden, and having bath'd there, dined afterwards with the Archduchess Elizabeth who is drinking the Waters at that Place. A Fire broke out at the Palace there a few Days ago, in the same Manner as lately happened in the Old Palace of this City, and like that also, was soon extinguished. The Russian Resident, M. Lanzinski, and the Duke of Mecklenberg's Resident, M. Seger, have each of them received Letters from their respective Masters to the Emperour; 'tis believed one of those Letters may contain the Conditions of Submission which, 'tis said, the Czar has advised the Duke of Mecklenberg to make to the Emperour. The States of the Principality of Transylvania purpose to send Deputies to the approaching Assembly at Presbourg, in order to observe what passes in that Meeting; but the States of Hungary object to the Admission of those Deputies, upon Account of their not being dependant on that Kingdom. A Commission is newly appointed; of which M. Branniers, a Privy Councillour, is President, in order to make a thorough Enquiry into the Effects left by the deceased M. Samuel Oppenhamer a rich Jew, and also by his Son who is likewise deceased.

**Copenhagen, May 30.** The King returned hither from Fredericksbourg on the 28th Instant, but will not stay longer than to give Directions concerning some Dispatches to be sent to Foreign Courts. On the 23d Instant an Express arrived here from the Czar; since which, 'tis observed that the fitting out of more Ships in this Harbour is carried on with less Vigour than it was some Days ago; And it is said that the King will set out in a Week's Time on his Return to Holstein, in order to review the Forces, from which Purpose his Majesty was lately diverted. M. Brekantir is expected to go shortly to Vienna, in Quality of his Danish Majesty's Envoy Extraordinary, and to relieve M. de Reichwein, to whom the King has given Leave to come from thence. Two Deputies from the City of Berguen, the Capital of Norway, are arrived here, to solicit a Diminution of Taxes.

**Hambourg, June 2.** On the 30th of last Month, the Duke de Retzwick sent his Grand Marshal the Baron van Eickholtz, and his Councillour of Finances M. Potchamp, to take Possession of the

Duchy of Ploen in case of the Decease of the Dutchess Dowager of that Name who is dangerously ill; but at their Arrival they were sent back by Officers whom the King of Denmark had already sent to take Possession in the Name of Count Carlstein, now at Copenhagen, who being Nephew of the late Duke, is for that Reason supported by the Interest of his Danish Majesty: On the other Hand, the Imperial Minister the Count de Metsch has sent thither his Secretary with a Letter from the Emperour to the Dutchess, and Instructions, as 'tis said, for putting that Duchy in Sequestration, till the Right of Succession be fully discussed and settled; nevertheless, 'tis the general Opinion that the Decision will prove as the Danish Court would have it: In the mean time the Secretary will not leave the Castle of Ploen, but gives out that he is indisposed; and his Indisposition being looked upon as feigned, all Communication with him is forbidden, as is likewise the supplying him with Provisions, it being the Purpose of this Prohibition to oblige him to return to this City. The Drawing of the great Lottery here will begin on the 4th Instant.

**Hambourg, June 3.** It is reported in these Parts, that Count Rantzau, who is in Confinement at Rendsburg, will be shortly sent to Copenhagen, to be examined there before the High Court of Justice. It is likewise reported, that the King of Sweden and the Landgrave of Hesse-Cassel, are to have an Interview in this City towards the End of this Month. Letters from Copenhagen of the 30th of last Month say, that their Danish Majesties made a Tour lately to Rosenbourg, where they lay one Night, dined the next Day at the Count de Holstein's, and are since returned to Fredericksberg. The Danish Fleet is ready for Sailing; besides which, other Ships are fitting out at Copenhagen.

**Brussels, June 3.** The Regiment of Vhelen marched hence the 1st Instant in the Morning, except 150 Men that are left behind; and a like Number of Prince Eugene's Regiment of Dragoons are since arrived here. The Regiment of Maldeghem is come hither from Mons on their Way to Antwerp, to relieve the Regiment of Pancalier. All the Garrisons in general of this Country are changed, except the Regiment de los Rios, which remains at Mons, and that of Wetterlo at Audenard. Prince Eugene's Regiment is ordered to Courtray. By the last Post from Vienna was brought hither an express Order sign'd by the Emperour, for taking away the Privilege of receiving Letters Postage-free, directed to what Person soever; those sent to the Marquess de Prié and Council of State are only excepted.

**Paris, May 29.** Prince Dolhorucky, the Czar's Ambassadour, is leaving his House, his Term in it being expired, and designs to lodge at an Inn till the Hambourg Ship arrives which is to take on board the Goods and rich Furniture he has bought here, in order to be transported to Petersbourg.

bourg. It is said that the Czar has so much Esteem for this Prince, that he designs to confer upon him the Office of High Chancellor, and that he will content, by some Means or other, the present Chancellor, who is extremely advanced in Age. It is also said, that great Jealousy reigns between Prince Dolgorucki and Prince Kurakin, and that these two Ministers keep no Correspondence with each other.
